

The Isis Thesis: A Study Decoding 870 Ancient Egyptian Signs, Volume 1, , Judy Kay King, Envision Editions, Limited, 2004, 0976281406, 9780976281405, . Many scientists believe human consciousness remains after death because of this Law: Energy cannot be created or destroyed. The Pharaohs also believed in life after death, for the evidence in The Isis Thesis shows they had a knowledge of Science beyond that of our 21st century. This knowledge enabled the Pharaohs to map a chemical reaction pathway for higher evolution, which they hid within their religious writings and artwork. By decoding this scientific sign system, The Isis Thesis reveals how the genetic heritage of the Deceased was cloned into a species that could exist in the Universe, rather than being recycled back to earth. This decoded sign system reconciles Religion with Science, while explaining how our universe works. The Pharaoh's science supports String Theory, Black Hole Theory and other modern science..
